

Quality Policy Statement

dg8 as a multidisciplined provider of professional design and engineering services is committed to providing high standards of service to our clients.

Our client relationships are our primary concern. Our objectives are to provide competent and experienced professionals to engage with our clients and deliver design and engineering solutions.

We will ensure these objectives are met through the appointment and training of competent people and the provision of adequate resources to meet our clients' needs and any applicable legislative and regulatory requirements.

We will further ensure these objectives are achieved through the application of a business management system which is defined in our Management System Manual (DG8-DOC-047) and satisfies the requirements of the latest issue of ISO 9001. Our directors will monitor, review and strive to continually improve, the performance of our systems and processes.

We will ensure the the effectiveness of our Quality Management System is maintained and continually improved, by utilising feedback from our customers, systems and employees and by the setting and monitoring of objectives during Management Review.

Each of our directors is accountable for reinforcing the requirements of this policy and committed to ensuring the defined requirements and the aspirations of our corporate policy is achieved.

We entrust our policy to all our employees, and look to their support and professionalism in making this policy truly effective in undertaking duties on behalf of dg8.
